

AFTER NATIONALIZATION OF HEALTH CARE, AMNESTY FOR ILLEGAL ALIENS IS NEXT!

By John W. Wallace

Now that the "Gang of Three" (Obama, Pelosi and Reid) have managed to get their unconstitutional Health Care bill somehow rammed through the congress to be signed by the imposter President, against the will of the majority of the American people, there is no doubt that the push for full Amnesty for the illegal aliens will be next.

When the communist style nationalization of the American Health Care system is signed by the imposter President, the Democratic-Communist Party will next try to steamroller the legislative approval of the remaining parts of their American Communist Manifesto before the elections in November of 2010.

Amnesty will be first, followed by Cap and Trade and then they will come after our guns.

President Obama has already approved a tentative plan drawn up by Senator Charles Schumer (D-NY) and Senator Lindsey Graham (R-SC) that will allow illegal aliens to be put on a path to citizenship, offer green cards to keep high-skilled foreign university graduates in this country and create a temporary program for low-skilled workers, with some of these workers also getting the chance to become citizens. How does this help the American worker?

Thankfully, there is some resistance to this plan already. Rep. Lamar Smith of Texas, the top Republican on the House Judiciary Committee, said flatly that it can't pass. "The bill doesn't have a prayer, because the American people oppose rewarding lawbreakers, which then encourages illegal immigration," he said. "Allowing millions of illegal immigrants to stay and take jobs away from citizens is like giving a burglar a key to the house. Illegal immigrants should return home and play by the rules like millions of legal immigrants."

Congress last looked at the illegal immigration problem back in 2007, when President George W. Bush joined with Democratic leaders to write a bill. But a bipartisan majority of senators joined a filibuster to block the bill.

The supporters of the 2007 effort concluded that Americans didn't trust the government to secure the borders and enforce the laws, even as they were offering legalization, particularly since illegal immigration has only grown since a 1986 amnesty.

The Schumer-Graham Plan has four main components:

1. an easier path to citizenship for illegal aliens,
2. a program to let in even more foreign workers,
3. improvements in immigration enforcement (we've heard this before) and
4. the introduction of biometric Social Security cards to help employers weed out illegal workers, unfortunately and unconstitutionally, American workers will also be required to carry national worker ID cards to make this work under their plan. "Show me your papers?"

According to the proposed plan, illegal immigrants would also have to demonstrate they are proficient at English and pass background checks to gain citizenship. More smoke and mirrors.

The plan would offer permanent legal status to foreign students who earn a post-graduate degree from an American university (so they can compete for jobs with our own college graduates), and will also create a future program for low-skilled workers (so they can compete with other American workers). Businesses could only hire them if no American worker is available, and the number allowed would fluctuate depending on the U.S. economy's needs. Workers who have kept jobs for a long time and have proved valuable members of their community could earn permanent legal status. How does this help the American worker?

This is just another piece of smoke and mirror amnesty legislation proposed by a couple of Marxist-communists in the Senate and the White House that is designed to completely destroy our country.

Why would we want to continually import foreign workers into the USA when our own American born workers cannot find jobs? How does this help the American worker?

If this immigration amnesty proposal is successful, America, this great beacon of freedom in the world, will be turned into a communist, third world, multi-lingual, dumbed-down, uneducated mass of humanity that can more easily be controlled and manipulated by their new Masters, the new American politburo and the old establishment oligarchy.
